## MEMORANDUM

DATE : February 23, 2012  
TO: Bill Burke  
FROM: Assistant Chief Randy Clark *R. Clark*  
RE: Vapor Light

We need to have a vapor light installed behind the security fence at Minimum Security. As you know, our SCORE equipment barn is located there and currently there is no illumination.

We feel that by adding a vapor light to the power pole just outside the security fence, the area will be better illuminated and act as a deterrent to possible theft.

Thank you for your attention.
